THE ICONIC AMERICAN PATRIOT PAUL REVERE WAS BORN

On January 1st, 285 years ago, Paul Revere was born. Paul Revere has been known throughout history for a variety of reasons; his support for the independence of American colonies, building an intelligence network to keep track of the British military, and perhaps his most memorable feat is the midnight ride he took to alert the American militia about the approach of the British forces.

His message of warning gave the troops just enough time to prepare themselves and fend off the British Army's initial attack which certainly would have been catastrophic.

The HappyGram team identifies with Paul Revere's mission of sharing important messages. It is a privilege to connect you with your loved ones by helping deliver their meaningful messages and photos. This wouldn't be possible without communities like yours, who believe in this shared mission of connection.

Happy New Year from the HappyGram family!
